1. Intensive activities of Soviet jet planes with Soviet markings have been observed in northern Poland. Formations of 9 to 15 planes were observed flying in both directions (sic) at an altitude of only 300 to 400 meters.
2. Apparently, these planes do not belong to the jet airplane division based at the Soviet airfield at Torun; the aircraft belonging to that division have Polish markings.
3. It is generally assumed that these Soviet planes neither take off nor land within Poland.
